REPUBLIC OF PORTUGAL BECOMES A REALITY--LISBON IS QUIET

At Very Moment When Success of Revolution
Is Assured, Its Chief Takes His Own
Life, Thinking All Is Lost.

LISBON, October 8.—The last doubts about the success of the revolution which turned Portugal at a stroke from a Monarchy to a Republic have now vanished in the face of the complete ascendancy of the Republican party. The Republic is an accomplished fact. With its success is coupled a tragical note, however, Admiral Candido Reis, the leader of the revolutionists, taking his own life at the very moment that the guns of his party swept away the last remaining vestiges of opposition under the delusion that the royalists had successfully beaten off their attack. With the death of Commander Gorjao, this makes two lives sacrificed to the revolution through suicide.

going on as before. Many tourists are in the city, a large number of them having been attracted by the revolution, and during the troublous times to satisfy their curiosity. Yesterday afternoon reports reached the city of an engagement between royal and republican troops at Setubal, a coast town some miles away from Lisbon. GIBRALTAR, October 7.—Both the British and American warships stationed here rendered King Manuel and his mother the royal salute upon their entrance into the harbor on the yacht Amelie, the action being taken as signifying their continued recognition as sovereigns. WASHINGTON, October 7.—The cruiser Des Moines was today ordered to Gibraltar, to proceed to either the Portuguese or the Spanish coast should its presence be needed. NEW YORK, October 7.—Senator Machado, the foreign minister of the new Republic of Portugal, at the request of President Braga, has cabled the Associated Press a statement outlining plans for a progressive form of government.

DR. MIGUEL BOMBARDA, REVOLUTIONARY LEADER.

Addressing a mass meeting of Republicans in Lisbon just prior to the outbreak against the throne.

LISBON CROWD LISTENING TO REVOLUTIONARY DOCTRINE.

MANUFACTURES FIGURES OF CENSUS SHOW TOTAL FOR HAWAII FOR YEAR OF \$47,947,151

Only a little short of forty-seven millions of dollars totaled the values of the manufactured articles of this Territory for the business year of 1909, according to the figures of the census bureau, issued yesterday by Dr. Victor S. Clark. Of this highly satisfactory amount, the sugar mills turned out a product valued at \$35,493,643, a little more than three-quarters of the whole. Second to sugar in the order of importance comes, not canned pineapples, but the products of the rice cleaning mills, which was valued at \$2,238,067, with the products of the pineapple canneries third, at \$1,591,073.

Of considerable importance, also, was found the products of the foundries and machine shops of the Territory, which turned out in all, products to the value of \$1,025,480. Altogether there were four hundred and ninety-eight establishments in the Territory which could be listed as manufacturing concerns. Of these, forty-five were sugar mills, seventy-four were rice cleaning plants, ten were pineapple canneries and three were foundries, these being the only ones dealt with as classes, all others being lumped together as "All Others."

In these various manufactures, were found 6465 employees, 589 being listed as salaried men and 5876 as wage earners. Those earned in wages and salaries during the year \$2,777,306, an average of \$1980 each for the year. Other cost of operating the plants, exclusive of raw material and help, amounted to \$3,296,432. Preliminary Figures. In giving out the statistics, Doctor Clark explains that they are to be taken as a preliminary census of the manufactures, figures as received from Washington, being subject to revision in the later revisions of the schedules and of the tabulation itself. The totals are nearly enough correct to be accepted provisionally, however. Population Figures. The delay in the publication of the population statistics of Honolulu and Hawaii, in the opinion of Doctor Clark, is explainable in the fact that to tabulate the Hawaiian statistics, a number of the tabulating machines will have to be readjusted. The number of nationalities here and the other particulars in the Hawaiian census that differentiates it from that of any other

POLITICS TODAY WILL BE LIVELY

Republican politics will fairly hum today, for at eleven o'clock all the candidates and officials of the party will leave in motor cars for Hauula, via the Pali, where a grand rally, followed by a luncheon, has been arranged for this afternoon. All the Hawaiians of

windward Oahu, taking in those from Kaimuki, Kakaia, Laie and other towns, will be brought to Hauula. The campaign will really open at Hauula. Link McCandless left for Kauai yesterday afternoon. He was accompanied by Kaniho, the "Cannon Ball of Kahaia." The Boss will make a tour of the Garden Island and return to Honolulu next Wednesday morning and take the first steamer out for Maui. McCandless believes that Kauai is not so strong for him as he was led to believe. Prominent Republicans from Kauai say that McCandless will fall below his last campaign's canvass.

AERONAUT KILLED; WIFE GOES INSANE

ST. PETERSBURG, October 8.—Another tragedy was added to the long list of aeronautic fatalities yesterday, when Captain Macievie of the Russian army fell 1640 feet while flying in a biplane, meeting instant death. His wife was among the thousands of spectators of his spectacular flight, the shock of her husband's awful death sending her insane over his body.

SPAIN'S FEARS FOR ITS OWN SAFETY

Threat of Spanish Republic Hovers Darkly Over Old Castile.

KING ALFONSO.

BARCELONA, October 7.—A riotous gathering, feared to indicate the newly arisen spirit of revolution in Spain, was yesterday charged by the civil police and temporarily dispersed. The greatest anxiety reigns throughout southern Spain, which harbors the hottest revolutionary spirits and sentiments. The government is taking heroic steps to stamp out the alarming discontent and unrest among the masses, already excited by the Spanish clerical troubles, and now inflamed by the Portuguese revolution. The leaders are being watched closely, and the royal police stand ready to break up every convulsion of those supposed to be conspiring against the government.

ALFONSO DERANGED, RUMOR IN EUROPE

The Socialist Press Publishing Stories About Spanish Monarch.

ROME, September 24.—Some very severe attacks are being made on Premier Canalejas of Spain, King Alfonso and others concerned in the war on the Roman Catholic Church. Senor Canalejas is set down as the head and front of the offenders, although it is believed he is partly controlled by wirepullers. The Giornale Italia, a non-Catholic organ, recently gave the report of an interview said to have been held with a Spanish personage of authority passing through Rome. One feature of the interview is that in which the Spanish "personage" describes Canalejas. "Canalejas," he said, "is regarded in Spain as a man of strong will but of medium talents. It is now some years since he was bitterly attacked because at the conclusion of his defense in a civil case (he is evidently a lawyer) the property of his client, who, if I do not mistake, was the Marquis of Santena, all came into his hands. It was thought then that his political career was irreparably smashed."

REGISTRATION NOW OVER 7000 MARK

Seven Hundred More Voters
This Year Than in
1908.

Ten hours yet remain to eligible voters to register for the November election. Today is the last day for registering and the board will conclude its labors at ten o'clock sharp tonight. The board will sit from 7:30 to 9:30 this morning; 12 to 1:30 p. m., and from 4 to 10. The Civic Federation yesterday morning adopted the following resolutions, urging registration: WHEREAS, It is the duty of all citizens of this Territory to take an active interest in the political and civic problems confronting this community, and WHEREAS, The present political campaign and election present to the people of this Territory important problems to be considered and solved, and WHEREAS, The time in which citizens eligible to vote can register is fast drawing to a close, IT IS HEREBY earnestly urged and recommended by the executive committee of the Civic Federation, that all citizens of whatever organization, or whatever political affiliation, eligible to vote, cause themselves to be registered immediately, that they may be able to vote in the coming election. Yesterday's registration ran the total for the island up to 7139. The fifth was still in the lead of the fourth last night, and unless the delinquents in the fourth are all rustled to the registration office the fifth district will have the majority of voters at the general election in November. Robert W. Shingle, acting manager for the Republican campaign, stated on Thursday that the registrations would be at least 7200. The figures will probably run over this total. Two years ago the fourth district registered 3239 and the fifth 3288. The fifth had the majority at the last election and in all probability will keep her place in the lead this campaign. Register today.

THANKS TAFT.

BEVERLY, October 7.—President Taft has received a message of appreciation from Prince Hsun, head of the Chinese navy, who is on his way home, expressing his thanks for the reception and kindness of the American people.

TEDDY GOING SOUTH.

KNOXVILLE, Tennessee, October 7.—Colonel Roosevelt delivered the principal speech today at the exposition here. He touched in a lively way upon national issues.

POLITICIANS TO MEET.

CHICAGO, October 7.—James S. Sherman and Senator William Lorimer will meet at the forthcoming Columbus Day banquet.

DISASTROUS FLOODS.

LOUISVILLE, October 7.—Disastrous floods are sweeping through the Ohio Valley. Much damage is being done to cattle and crops. Heavy downpouring of rain has caused the overflowing of the waterways. No loss of life has been reported.

The plant of the American Olive Company, Los Angeles, was destroyed in a midnight blaze. An almost continuous explosion of one-gallon tins of olive oil hindered the firemen in their attempt to save the buildings. The loss is estimated at \$250,000.

George W. Patten, the millionaire grain operator, who died of tuberculosis at Evanston, Illinois, left a fortune estimated at \$5,000,000, the greater part of which, it is said, will be left to public charities, including a large donation for the furtherance of the anti-tuberculosis congress.

COLONEL MACOMB, U. S. A., WILL BE BRIGADIER-GENERAL IN COMMAND HERE

Col. Montgomery M. Macomb, Sixth Field Artillery, United States Army, has been designated to command the new military district of Hawaii, as soon as he becomes a brigadier-general on November 14, when Brigadier-General Albert L. Myer retires from active service. Meanwhile Col. Walter M. Schuyler, Fifth Cavalry, who has been ranking officer in Hawaii since the cavalry arrived here a year and a half ago, is temporarily in command of the new district. Colonel Schuyler will probably remain on duty here until his successor arrives. With General Macomb will probably arrive his chief of staff and other officers, including aides. Major Dunning, Twentieth Infantry, who commands the military post of Fort Shafter, it is rumored, will be chief of staff.

DETAILS OF THE LOS ANGELES TRAGEDY

Latest Account of the Crime
Which Shocked Entire
Nation.

ELDER JUMPS THREE STORIES

Foreman of Composing Room Is
Saved by Being Blown
Through Floor.

The first complete details of the terrible tragedy in the Los Angeles Times building early on the morning of October 1 were received in Honolulu yesterday in the San Francisco Evening Post of that date. While Honolulu has already learned the main facts of the gastly crime by cable, the real terror of that explosion was hardly pictured in the brief messages which were received here. A late dispatch in the Post tells of the death of Churchill Harvey-Elder, former city editor of The Advertiser, whose awful fate shocked a hundred friends here. It said:

"Churchill Harvey-Elder, the assistant city editor, who was terribly injured by the flames and by leaping from a third-story window to the street pavement, died at the hospital at seven-thirty o'clock. He suffered terrible agony from the time he was removed from the burning building to the hospital, and no hope of his recovery was entertained at any time by the attending surgeons."

Of the bloody events immediately following the explosion of the bomb, which seems to have gone off in the basement, the Post said:

"The head and missing come principally from the composing-room of the paper, which was directly above the spot where the explosion occurred. The bodies of a number of printers and linotype operators are believed to be buried in the still burning debris in the basement of the building."

"In the local newsroom of the paper all of the editors and reporters had gone home, with the exception of two or three men. Assistant City Editor Harvey-Elder was still on duty, and suffered injuries from which he died later. When the explosion came and the flames shot up through all parts of the building, Harvey-Elder was badly injured, but attempted to escape. Finding exit by the stairway shut off, he ran to the windows which opened out from the third floor on Broadway. There was no fire escape there, and, hemmed in by flames, he was forced to jump. Firemen below held a net and he jumped, but partly missed the net and struck the pavement. His right leg was broken, and besides his serious burns he was badly injured internally."

Telegraph Men Missing.

"Night Editor Taggart was at work in the composing-room. He leaped through a window and made his way out across the roofs of adjoining buildings to safety."

"The entire force of editors and operators was at work in the telegraph room, excepting Telegraph Editor R. N. Whitney, formerly of Boston, who but a few moments before had left the office to go to his home. He heard the explosion and returned. Harry L. Crane, the assistant telegraph editor, was at his desk and was seen to rise and attempt to make his way out of the building. He was not found among the survivors and is believed to have perished."

"R. L. Sawyer, a Western Union operator, is also missing. With another employee Sawyer, who was crippled and humpbacked, started to make his way to the stairway. The man with Sawyer finally escaped by leaping through a third-story window to a net stretched below and was saved. Sawyer has not been found."

"Several men were seen by spectators to come to the upper windows a few minutes after the fire broke out and wave and cry for help. The firemen failed to get their ladders up quick."
